HUFFMAN DROUGHT BILL Introduced March 13, 2014

Original Cosponsors: Grace Napolitano, Peter DeFazio, George Miller, John Garamendi, Mike Thompson, Jerry McNerney, Doris Matsui, Anna G. Eshoo, Sam Farr, Jackie Speier, Ami Bera, Juan Vargas, Alan Lowenthal, and Scott Peters

Building on many common sense, bicameral proposals for how best to assist Californians facing a historic drought, and lay the foundation for assistance to other western states, this draft bill offers a comprehensive package of solutions.

• Emergency funding of \$473 million (the Senate version only has \$300 million):

Area	Huffman Drought Assistance Bill	Senate Drought Assistance Bill
Emergency	\$75 million: \$5 million to the Rural Water and Waste	\$25 million: \$25 million to the
Drinking	Disposal program, \$30 million for grants under the	Emergency Community Water
Water & Water	Clean Water State Revolving Fund, \$15 billion for	Assistance Grants program.
Quality	grants under the Drinking Water State Revolving Fund,	
	and \$25 million to the Emergency Community Water	
	Assistance Grants program.	
Assistance to	\$53 million: \$25 million to assist low-income migrant	\$50 million: \$25 million to assist low-
Impacted	and seasonal farmworkers harmed by the drought, \$25	income migrant and seasonal
Communities	million for Pre-Disaster Mitigation Grants to help	farmworkers harmed by the drought,
	communities address the impacts of the drought, and \$3	and \$25 million for Pre-Disaster
	million for the Drug Enforcement Administration to	Mitigation Grants to help communities
	assist in suppression of illegal trespass marijuana grows	address the impacts of the drought.
	that diminish available water supply.	
Water Supply,	\$267 million: \$152 million for Reclamation projects,	\$200 million: \$100 million for
Recycling and	WaterSMART and Title XVI, and \$100 million in	Reclamation projects, and \$100 million
Efficiency	emergency assistance for farmers to fund water	in emergency assistance for farmers to
Programs	conservation. A new \$15 million program to leverage	fund water conservation.
	investments into recycling projects within integrated	
	regional projects.	
Environmental	\$78 million: \$50 million for the Land and Water	\$25 million: \$25 million in grants for
& Ecosystem	Conservation Fund to address both water quality and	private forest landowners to carry out
Impacts	risks of fire, \$25 million in grants for private forest	conservation measures in response to
	landowners to carry out conservation measures in	drought and wildlife risks.
	response to drought and wildlife risks, and \$3 million to	
	U.S. Fish and Wildlife for fisheries work in response to	
	the drought.	

- Clarifies environmental protections, including the Endangered Species Act and relevant biological opinions, and does not include overly prescriptive mandates by Congress that could threaten to undermine the state of California's coequal goals of reliable water supply and protecting, restoring, and enhancing the Delta ecosystem. Also ensures that assistance would be provided in compliance with existing state laws regarding groundwater monitoring and agricultural water management.
- Like the Senate bill, amends the Stafford Act to ensure that the damages from California's drought are properly recognized, allowing for a broader consideration of the full economic impact of a drought, not simply to destruction of physical infrastructure and property, but economic losses.
- Unique to this bill, directs the President to update the National Response Plan and the National Disaster Recovery Framework to address plans for responding to catastrophic drought, preparing for longer term, continued drought impacting California and the rest of the west.
- Unique to this bill, prepares for future drought events by including new policies to direct the Army Corps of Engineers to modernized reservoir operations, and a new loan fund to support new regional water management projects by investing in water recycling.
